

# Positioning

## *What is eaMindShare?*

---

eaMindShare is an Architecture Body of Knowledge(BOK) containing;

- i) Recipe for making Enterprise,Domain or Solution Architecture
- ii) Processes to formalise approaches to architecture
- iii) Artefacts(Templates) to shape delivery and guarantee consistency of approach

## *Can I use eaMindShare on its own?*

---

Yes. It has the necessary processes and artefacts you expect to find in a standalone Body of Knowledge.

## *Can I use eaMindShare with other approaches?*

---

Yes. You can use eaMindShare to complement and enhance most of the other industry approaches. It is best when supplementing TOGAF with the eaMindShare processes and supporting artefacts.

## *What makes eaMindShare different?*

---

- i) Seeded with standards. E.g. COBIT
- ii) Simple click thru approach
- iii) Covers Enterprise, Domain & Solution Architecture
- iv) Can operate at different levels(Maturities)
- v) Templates is MindManager based, injecting flexibility into the generation of deliverables

## *What Products are available?*

---

eaMindShare is available in 3 flavours, namely:

- i) Community Edition
- ii) Professional Edition
- iii) Workgroup Edition

## Conditions of Use

### *Why do I have to subscribe?*

---

eaMindShare is based on frequent updates more suited towards a subscription based model oppose to a traditional license model.

### *Any restrictions on the Community Edition?*

---

eaMindShare Community Edition is completely free, but still requires annual subscription. It is subject to the Creative Commons license and may only be use for non commercial projects. The Community Edition also does not have access to the Mindmanager templates. These however is accessible as viewable images.
